

Special “Live Auction” Adam Grimm’s Ohio 2003 Bicentennial Print “Bountiful Heritage”

In 2002, Adam Grimm, a nationally recognized artist and winner of the Federal Duck Stamp competition was commissioned to create a special painting to be featured as the Ohio Division of Natural Resource’s Bicentennial image. This painting entitled “**Bountiful Heritage**” is pictured above and graced the cover of the Wild Ohio Magazine in Spring of 2003.

Adam Grimm’s mission through his artwork is to celebrate the awesome beauty and power of nature. His ultimate desire is to channel his love of the outdoors through his paintings, to be shared with all those who view them. Adam pays rigid attention to even the smallest details in his work because as he says, “If God thought it was important enough to create it, then it would be disrespectful if I didn’t make the extra effort to paint it accurately.”

The Woods and Waters Club is proud to offer this limited edition print as a Special Live Auction Item tonight.
